ANYTIME SOCCER TRAINING

A Note for Parents

Better soccer at home, between practices

Your child's team is using **Anytime Soccer Training** to help every player improve between practices. Here is what it is and how to get started.

What your child gets

WHAT	WHAT IT MEANS
Training at home	Your child follows short video sessions with a ball and a bit of space, any time that suits your family.
Set by the coach	Your coach assigns the homework, so your child works on what the team needs, between practices.
Fun to stick with	Contests and the leaderboard give your child something to chase and a reason to keep going.

Parents never pay. Your team takes care of it.

How to get started

STEP	DETAILS
1 **Create your account**	Use the link your coach sends you. It only takes a minute.
2 **Add a profile for your child**	And one for yourself, so you can follow along.
3 **Join your child's team**	Your coach upgrades your child once they have joined.
4 **Start training**	Your child opens the homework from the coach and gets going.
