ANYTIME SOCCER TRAINING

Welcome to Anytime Soccer Training

Helping every player get better, one session at a time

Anytime Soccer Training gives every player short, coach-led video sessions they can do at home with just a ball and a bit of space. Coaches assign the training, players follow along between practices, and contests and the leaderboard keep everyone motivated.

What your child gets

WHAT	WHAT IT MEANS
Training at home	Your child follows short video sessions with a ball and a bit of space, any time that suits your family.
Set by the coach	Your coach assigns the homework, so your child works on key skills between practices.
Fun to stick with	Contests and the leaderboard give your child something to chase and a reason to keep going.
Results that add up	Short sessions, done often, add up. Your child gets better, with a stronger touch, more confidence and more skill, and sees their own progress as they train.

How to get started

STEP	DETAILS
1 **Create your account**	Use the link your coach sends you. It only takes a minute.
2 **Add a profile for your child**	And one for yourself, so you can follow along.
3 **Join your child's team**	Your coach upgrades your child once they have joined.
4 **Start training**	Your child opens the homework from the coach and gets going.
